Energy Index For Ancillary and Control Area Services

Effective October 1, 2003

Posted August 27, 2003

Effective October 1, 2003, the energy index for energy settlements specified in the Ancillary and Control Area Service Rate Schedules and Business Practices will be the "Dow-Jones Mid Columbia Firm Power Index". The index applies to the services of Energy Imbalance, Generation Imbalance, and Operating Reserves for both Spinning and Supplemental Reserves.

The index is the same as that used for the previous period. It will continue in effect until changed by BPAT.

The only exception is for settlements under the NWPP Reserve Sharing Procedures, in which case the energy index specified in the procedures will be used.

If you have any questions, please contact [Dave Gilman](#) (360) 418-8689.
